Chau Da Vits

Fullstack Developer

davidduongxu1@gmail.com | +84 337 499 390 | Go Vap District, HCMC | linkedin.com/in/davidchau21

Fullstack Developer with advanced expertise in Node.js, NestJS, React.js, and Next.js, specializing in scalable backend systems and responsive frontend interfaces. Demonstrated proficiency in building AI-powered applications, real-time data processing platforms, and enterprise-grade automation workflows. Proven ability to design and maintain microservices architectures while optimizing system performance and ensuring high code quality.

Experience

Fullstack Developer | Wiintek Corporation *03/2025 - 03/2026*

- Architected and deployed scalable microservices backend systems using NestJS, handling real-time data processing for distributed cryptocurrency mining nodes.
- Engineered full-stack Voting and Ticket Support management systems with Node.js backend and React.js frontend, enhancing user experience and system reliability.
- Developed AI-powered chatbots and implemented n8n automation workflows, reducing manual customer support efforts by streamlining repetitive operational tasks.
- Built dynamic monitoring dashboards using Next.js and React.js with optimized SEO performance and minimal latency for system visibility.
- Designed and implemented RESTful APIs for mining data processing and complex business logic, ensuring data integrity and system scalability.

Backend Nodejs Intern | MangoAds Co. LTD *08/2024 - 01/2025*

- Designed and implemented RESTful APIs aligned with business requirements, emphasizing reliability and maintainability across production systems.
- Diagnosed and resolved critical post-deployment bugs, ensuring system stability and minimal downtime for production environments.
- Optimized API performance through legacy codebase refactoring and MongoDB query optimization, improving query.
- Acquired hands-on expertise with Docker containerization and template rendering for deployment automation.

Education

Industrial University of Ho Chi Minh City *2020 - 2025*

- Major - Software Engineering

Skills

- Backend Frameworks: Node.js, NestJS, Express.js, Spring Boot.
- Frontend Frameworks: React.js, Next.js, HTML5, CSS3, Tailwind CSS.
- Languages: JavaScript, TypeScript, Java.
- Databases: PostgreSQL, MongoDB, MySQL, SQL Server.
- Tools & Platforms: Docker, Git, N8N, Retrieval-Augmented Generation (RAG)
- English: English (Technical reading & basic communication)
